## MESSAGE FROM MANAGING DIRECTOR

“Ratul Group competently manufacturing and exporting fashion garments to leading global brands. Our insights into global fashion help us create fashion that is fresh and trendy. We have the capability to offer a comprehensive fashion garments portfolio with diverse design and fashion requirements, given our large in-house capacities and efficient manufacturing systems. Our manufacturing scale and strict processes for producing quality garments make us even more prominent as a global vendor. Our multi-locational presence enables us with different skill sets to cater to our customers. At Ratul Group, we believe in doing things right and deliver customer value. We are focusing on building an adaptive team and culture – one that can continually renew itself and thrive on change. We have demonstrated that we have the right strategy, right culture and right geographical footprint to deliver consistent and sustained value for our stakeholders.”

## OUR BUSINESS PARTNER

We only build long-term relationships with customers that are founded on trust and reliability.

Our main customers have worked with us for many years. We are always pleased to welcome new clients and work towards building long term partnerships with them.

Sustainability

Loyalty

Ratul Group of Companies Limited is one of the respected business company in Bangladesh. It is a fast-growing conglomerate. We believe that evolution, modernization, continuous learning and anticipation to the new changes. The group believes in sound planning, close analysis, the study of opportunities and that the successful performance is a result in a clear vision, effective management, and competent individuals. We pay great attention to social development and effective participation in economic growth and development. We have established ourselves as an important garments manufacturer for a number of renowned brand apparels of Europe, & Australia.

Today is the age of fashion. We consume large quantities of clothes every year. The average spend on clothing is more than our annual income. Due to increasing demand and higher profits resulting from sale of products with environmental benefits, a new trend is gaining ground - green marketing.

## OUR VISION, MISSION OBJECTIVES, INITIATIVES AND COMMITMENTS

### MISSION

Ratul mission is to continue our tradition of global leadership in high-quality apparel and commit ourselves to promote universal ideals of community and service. We create products that make people feel stylish, comfortable and special from birth to maturity. We aim at an integrative approach in designing and producing our products which focus on innovation, advanced technologies and special attention to our customer's needs and lifestyles. Ratul is committed to supporting our customers, fulfilling and exceeding their expectations, and enabling them to be more competitive in the market place. We are proud of being a multicultural global firm and believe in mutual respect and co-existence within the Ratul family and in the communities and environments in which we work. The company is committed to being a safe and healthy workplace that provides its employees with the opportunity to grow and develop within the Ratul family. The company is committed to continuing to grow and evolve and considering our corporate social and environmental responsibilities and stewardship throughout the process.

### VISION

At Ratul we strive to maintain our position as global leaders in the field of high-quality apparel. Lead by the desire to support our customers, we aspire to fulfill and exceed their expectations through continuous innovation and creativity, all the while staying true to our universal social and environmental ideals.

### VALUES

Even more important is the quality consciousness of each individual staff member. Our aim is ensuring a clear communication and implementation of our company values throughout the entire organization. In today's competitive market quality management is a key parameter. Our Quality management is divided in three key elements: Product quality, process quality and company values.
